

ASSEMBLE

FLIP TABLE

The Assemble Series Flip Table is designed for learning and meeting environments where flexibility and functionality are key. When you need tables that flip, the Assemble series offers 3 base styles for any aesthetic. Simple, elegant lines make this a good choice for a variety of environments. The handle design allows for one individual to release both mechanisms simultaneously and flip the table up and down. When flipped, the tables can be moved, nested out of the way and easily reconfigured by both students and teachers.

Learn. Think. Do.™

Furniture solutions for flexible and agile learning environments that encourage individual choice, increased movement and dynamic student engagement.
