

# ETHOS

## ETHOS 2.0 WITH STORAGE BASE

With active learning, students engage with ideas — and each other — in meaningful ways. Activities like problem-solving, group discussions and quiet study cater to every learning style and, ultimately, the understanding and retention of class concepts. Active learning requires a dynamic classroom where the physical environment responds to the curriculum, and the right seating, like the Ethos Series from Haskell Education, serves as a teaching assistant. More than a chair, the agile storage-base plus classic seat shell design of the Ethos Series seamlessly transitions between lecture, collaborative and group teaching modes so the class stays focused on what really matters: education.

**Learn. Think. Do.™**

Furniture solutions for flexible and agile learning environments that encourage individual choice, increased movement and dynamic student engagement.

## 21ST CENTURY CLASSROOM

The Ethos Series simplifies a "Think-Pair-Share" lesson plan. Blending flexibility (like 360-degree swiveling capability and an ambidextrous work surface arm) with mobility and personal storage, the all-in-one seating unit efficiently switches between lecture, collaborative and group modes to foster active learning in the classroom.
