EDUCATION

The future of education takes shape with the Echo Series of mobile, modular furniture solutions. Designed for student-centered learning, Echo's unique, chevron-shaped tables seamlessly transition into all active learning postures—from lecture to group work, private study and discussion. To foster collaboration, every student gets a marker board in the complete Echo classroom. Perfect for personal use, ideation, interaction and presentations, the individual marker boards integrate neatly with Echo's tables, easels and desks and double as a design element. Versatile, and built with Haskell quality and durability, the Echo Series evolves with today's ever-changing classroom.

beyond the desk

More than a well-designed desk, the Echo Series incorporates individual marker boards into a comprehensive classroom solution. Essential for fostering collaboration, the marker boards, markers and accessories double as a design element. With hooks for neat storage and docks and easels to display student work, Echo's fully integrated system becomes part of the daily curriculum.

lecture - group - discussion

Intuitive, mobile tables and a fully integrated marker board system support the many postures of an active classroom. Seamlessly, simply transitioning from lecture to group work and discussion, the Echo Series sets students up for interaction with its chevron shape and efficient design. Then, quick as a quiz, the individual marker boards snap in place for quiet study and testing. Saving time and space, the Echo Series fits into even the most dynamic lesson plan.

the complete classroom

The Echo Series engages the entire classroom with a complete complement of products. Versatile, well-designed tables and the essential marker board system – individual magnetic marker boards, markers, hooks and docks, all integrated – are at the core of the collection. Supporting elements in the Echo Series – student desking, teacher desks, easels and teaming tables – coordinate in a wide range of designer colors, finishes, profiles and options to complete the classroom.

adjustable height

The Echo height adjustable table legs come in both caster and glide versions. Ideal for spaces where multiple height tables are desired to foster better learning outcomes, the height adjustable leg solution is a perfect compliment to the entire family of Echo tables. Two pin height adjustable leg options offer height ranges from 24"- 35" and 28"- 41".

INSTRUCTION ZONE

teacher's podium educator desk

The Echo mobile table combined with the Smart Series podium creates a functional teachers station while keeping with the overall aesthetic of the Echo classroom. The table connects to the all metal podium chassis with a powerful magnet. This allows the table to come apart from the podium and also provides a non-handed teaching solution as the table can be attached to either side of the podium. Easy mobility is provided as both the podium and table come with locking casters. A convenient storage drawer, adjustable shelf and a readers stand complete this offering.

the mobile teacher

Haskell Education's Echo Series Educators desk provides a durable and attractive solution for mobile desking. Designed with the features of full mobility and the ability to assemble the desk left or right handed. The Echo Educators desk blends seamlessly into any classroom environment. Available in 2 sizes: 24"x54" and 24"x60"
